BECAUSE LIFE'S TOUGH ENOUGH  
WITHOUT A BEDWETTING PROBLEM!

*BEDWETTING! WHEN DOES IT END?*

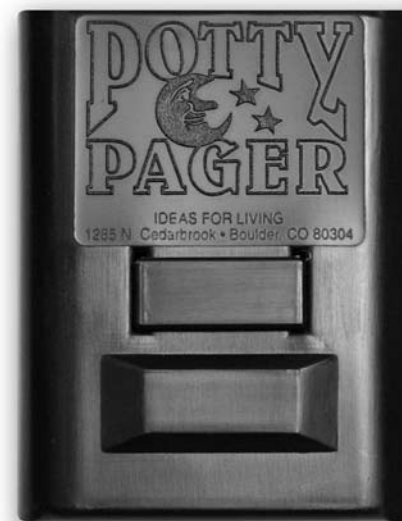

Untreated, your child's chance of outgrowing bedwetting is just 14% each year. Most bedwetters are simply deep sleepers who don't notice their bladder fullness like the rest of us do. Just 4% of bedwetters have an underlying physical problem, but you should check with your doctor to rule that out.

So then what treatment options do you have? Drugs that unnaturally make your child retain excess water are no solution, because the child never learns to recognize bladder fullness.

Bedwetting alarms have been proven effective in numerous clinical studies. But it's tough to stay with the program when your alarm wakes everyone in the house except the bedwetter.

The Potty Pager is different. It's silent. And it's wireless. And quite simply, it teaches your child to respond normally to bladder fullness like the rest of us do. How? The Potty Pager uses a mechanical vibration, so it's easily felt, but not heard. At the first sign of wetness, the silent alarm responds, waking your child quickly so he or she learns to respond to bladder fullness. So kids learn to get up, or just hold it until morning.

Unlike imitation vibrate alarms, the Potty Pager's vibration is powerful, so it wakes your child quickly. And unlike the imitators, it cycles on and off every couple seconds so it can't lull your child back to sleep. That's why the Potty Pager money back guarantee doesn't vaporize as soon as your child uses the alarm!

*Actual Size*

The Potty Pager is 100% safe, used as directed. And just 4% of our customers report that their bedwetters sleep through the Potty Pager vibrate alarm. The Potty Pager snaps right into ordinary boys' cotton briefs. (Girls may prefer to use two pair of cotton panties.)

The Potty Pager is recommended by pediatricians and urologists coast to coast. It runs on two AA "Heavy Duty" batteries. It comes with a 30-day money-back guarantee, and a 90 day free replacement warranty. It has literally changed the lives of bedwetters from 5 to 20 years of age.

## Just a few of many unsolicited testimonials!

My 6 year old son has had the Potty Pager for about 6 weeks, It worked for him after 1-1/2 weeks! I couldn't believe it. It's been over a month now and he has had no relapse. Thank you for inventing the Potty Pager.

– Mrs. Aspinwall

Congratulations! You have the bedwetting alarm that works when others fail. It's a smart invention and it deserves the high praise it receives.

– Dr. Barton Schmitt  
Director of the Enuresis Clinic  
Children's Hospital Denver

I just had to let you know how happy we are about the Potty Pager. It's the greatest thing ever invented. It's a godsend. I am going to call our pediatrician right away.

– Terry Reiser

My 7-year old's bedwetting problem is finally solved. Thanks Potty Pager. You're awesome!!

– Carl Buzzeo

Please add my family to your list of satisfied customers! I don't know how your product did it, but it worked as promised. My son is so thrilled to be done with bedwetting and I'm thrilled about not having to wash his bed linens as frequently. Thank you so very much for this amazing product.

– C. Smith

Just want to add another success story to your list. My 8 year old son began using your Potty Pager a few months ago. I was skeptical, but it was recommended by our pediatrician, so I thought we'd give it a try. I am amazed at how quickly it helped my son – he is so proud!

– Keri M.

Since my 8 year old son had never had a dry night, even on drugs, I was very skeptical when his doctor recommended the Potty Pager. It got my son up 3 times the first night, and he's been dry ever since! If I hadn't seen it myself I still wouldn't believe it.

– Donna Miers

We are so happy, grateful that our daughter has stopped bed-wetting. It has definitely been a prayer answered. Thank you for all your help. We are going to start our son on the Potty Pager now that his sister is done with it.

– Jeanine Lee

We are thrilled with the Potty Pager. It ended our 11 year old's bedwetting in 12 weeks. We've been recommending it to our friends.

– Mike Bowen

The Potty Pager has been wonderful for our 5 year old son. He was wet every night before the Potty Pager. In just the 1st week we saw a big improvement – he only wet every other night. After 4 weeks our son was completely dry and its been 3 months now. I even wrote a letter to Dear Abby about your wonderful product!

– Janice Nelson

I just had to let you know how delighted we are with the Potty Pager! I'd thought nothing could wake our 6 year old son, but when a urologist recommended the Potty Pager, we decided to give it a try. Three weeks later our son's bedwetting problems were over!

– Jan Van Hoff

After trying several things including expensive drugs, the Potty Pager did the trick in about 10 weeks. During that 10 weeks our daughter never actually soaked the bed because the pager woke her up. She's 10 years old and is happy to be dry at nites and so are we! I don't know why it works but we are thrilled with the results!

– Marnie Appelhans

Just a note to thank the makers of the Potty Pager and Dr. Wallnston who recommended it for our 6-year old daughter. Like all of your testimonials on your brochure, it worked like a charm – from the first night! I can't tell you how happy all of us are. We will recommend it to everyone!

– Eve Schiff

Thank you very very much for the Potty Pager.

– Nathan  
(10 years old)

My son is 6 years old and has wet the bed every night of his life. We tried everything to help him stop, limiting fluid intake, waking him during the night, but nothing helped. We decided to try the Potty Pager. Upon using it, we realized that our son was wetting 3 times a night, which is why our efforts didn't work. After 2-1/2 weeks of using the Potty Pager, our son stopped wetting the bed completely, and has been dry for over 2 weeks now. It isn't often I find a product I believe in enough to send a letter of support, but the Potty Pager was inexpensive and effective in solving an embarrassing, nagging problem. Thank you!

– Dawn M. Boosz

Just wanted to pay you a sincere "thank you" for your ingenious product. After using the Potty Pager successfully for 2 weeks, our 5 year old daughter "Alexa" is now completely dry at night and has been for almost 6 weeks with no accidents. She is so thrilled to be potty trained and is a much happier child with more confidence.

– Lisa A Young

We just wanted to let you know, our fourteen-year old son – God bless you – is finally dry. Your product worked once and for all. There are miracles out there, and yours are for real. Thanks beyond thanks.

– The Ozarks

You have a wonderful and great product! We could see a big difference in the 1st week. It has already paid for itself, when you figure how much I spent on pull ups! Thank you!

– Sherry Coate

The Potty Pager cured my 10-1/2 year old's bedwetting in 12 weeks. This is a child who'd never responded to drugs or beeper alarms. He's a different child now. Even his grades in school have improved.

– Sheila Klocktow

Thank you for this wonderful invention – I love it! I am thrilled to tell you we think this product is fantastic. Thank you so much for creating such a common sense product that is helping so many parents struggling to help their children through this problem.

– Mrs. W. Wiggins
